THE CREATOR

Matthew Rogers Harrison is the creator and writer of *Mud Freestone: The Mad Dog* and *R.A*, and founder of Rush to the Front, an independent comic publisher in Charleston, South Carolina.

Mud began as a sci-fi action screenplay. After eight revisions, a producer friend suggested turning it into a comic, so Harrison flipped the usual path: instead of a comic that grows into a film, the screenplay became a five-issue comic series. His biggest influence is Frank Miller's gritty *Batman*. He also plays Mud in the live-action shoot.
